

Christian Donato

Sydney, NSW, 2069 • christian.donato.dev@gmail.com • 0423 738 881

Professional Summary

Business Information Systems student with hands-on experience in process improvement, workflow automation, SQL analysis, and API-driven systems. Skilled in translating business requirements into technical solutions and delivering data-driven insights. Seeking BA/Operations/Product roles where I can combine analytical thinking with technical execution.

Education

Macquarie University

Sydney, NSW

Bachelor of Commerce, Business Information Systems

2023-2026

- Relevant Coursework: Data Analysis, Database Systems, Information Systems Design, Business Process Modelling, Project Management, Statistics for Business
- Academic Achievement: Distinction-level performance across BIS and analysis units

St Pius X College

Sydney, NSW

High School Certificate

2015-2022

Experience

Plenti Process

Sydney, NSW

Improvement

2024-2025

Specialist - Intern

- Led end-to-end migration of automated communication workflows, rebuilding 300+ email sequences to improve scalability, reliability, and operational efficiency
- Re-engineered API workflow triggers and automation logic, ensuring a seamless platform transition with zero customer-facing disruption
- Developed and executed SQL queries to extract, clean, and analyse operational datasets, producing insights that informed product, operations, and compliance decisions
- Conducted comprehensive testing and troubleshooting of automation workflows, identifying root-cause issues and improving system stability and performance
- Collaborated with cross-functional teams to deliver data-driven recommendations that enhanced workflow efficiency and reduced manual intervention

Junior Adventures Group

Sydney, NSW

Educator - Outside School Hours Care

May 2026 - Current

- Supervise students in after-school programs, ensuring safety, engagement, and smooth daily operations.
- Manage activity planning, documentation, and communication with parents and school staff.

Kmart Australia

Sydney, NSW

Retail Sales Assistant

2022-2026

- Delivered high-volume customer service, managed transactions efficiently, and resolved enquiries in a fast-paced retail environment.

Projects

AI Customer Service Assistant

API Integration, Webhooks, OAuth, Gmail API, Stripe API, AI/LLM Integration (ChatGPT), Automation Logic, Web App Development

- Developed a web-based customer service automation tool that connected to Gmail and Stripe APIs to retrieve customer emails, payment history, and account details.
- Implemented AI-generated responses using ChatGPT, dynamically tailored to company policies, product information, and customer context.
- Designed automated workflows that categorised enquiries, drafted replies, and streamlined support handling with minimal manual intervention.
- Built a lightweight UI for onboarding, API authentication, and configuration of support rules.

Finance Wrapped - Open Banking Financial Insights Tool

[Node.js](#), Python, APIs, OAuth2, React, HTML/CSS, Javascript, Docker

- Built secure open banking integration using REST APIs/OAuth2 and developed backend logic for data cleansing, categorisation, and spending-pattern analysis.
- Implemented React dashboards with Chart.js/D3.js to visualise income, expenses, and category breakdowns.
- Designed user onboarding and monthly financial check-ins while collaborating in an Agile team using Node.js, Python, React, SQL/NoSQL, and Git/GitHub.

Music Discovery Web App

JavaScript, HTML/CSS

- Developed a web application that retrieves and displays music data using public APIs with design interactive UI components and implemented search, filtering, and playlist features

2D Game Development Projects

Unity, C#, Asset Design

- Created multiple 2D games with custom mechanics, UI systems, and original sprite assets
- Implemented gameplay logic, state management, and user interaction flows

Leadership & Activities

St Pius X College

Peer Support Leader

Sydney, NSW · 2021 – 2022

- Mentored Year 7 students during transition programs, supporting wellbeing and positive school engagement
- Facilitated small-group activities and built communication, leadership, and conflict-resolution skills

Skills & Interests

Technical: SQL, Excel (Pivot Tables, Lookups, Data Cleaning), CRM Systems, API Integration & Testing, Workflow Automation, Business Process Mapping, Data Analysis, Dashboarding & Reporting, Requirements Gathering, UAT, Stakeholder Communication, Project Coordination (Trello)

Language: English (Fluent)

Interests: Workflow automation, data visualisation, game design, process optimisation, technology in education
